

Plasma Money Sterilizer

In today's world, keeping currency sanitized is important for protecting community health. SMI's Plasma Money Sanitizer is the perfect device that cleans cash while counting it. It's the world's first open sterilizer. This user-friendly money sanitizer device is automated and has sterilizer timed capabilities.

Over 10 million plasma ion clusters are released during sterilization.

Kills viruses, bacteria, etc on Currency, Checks, Coins and Canisters

**Sterilization:
20 seconds – 98% /
30 seconds – 99.9%**

Added Functions & Specifications:
